

Please do not take away my right to listen to whatever form of radio I want to. I pay for that right and the service that XM Radio provides me is exactly what I am needing on my long commute into Washington DC. Why are you even considering allowing the National Association of Broadcasters to dictate why I can and can not listen to. Had they provided the service that XM does, I would not have needed to make a change. I love XM radio and do not take my rights away. Vote no on the NAB's petition 04-160.
